

BAT BANDING NEWS

Table of Contents

Volumes 1–4, 1960–1963

The title *Bat Banding News* was published between 1960–1963 (Volumes 1 through 4). Beginning with Volume 5 in 1964, the title was changed to *Bat Research News*. Dr. Wayne H. Davis was the founder and original editor of both *Bat Banding News* and *Bat Research News* and he compiled all of the original issues between 1960 and 1970. The original issues did not have a table of contents. The listing of contents for volumes 1–10 presented here was prepared in 2010 by Dr. Margaret A. Griffiths, Editor of *Bat Research News* at that time. Any errors in the following list is inadvertent.

VOLUME 1, 1960

Number 1, Fall 1960 (Note: Only one issue in Volume 1)

Editor's Column	1
Band Injuries	1
Tips on Techniques	3
Here and There	4
Be Careful - Rabies and Bats Warning	4

VOLUME 2, 1961

Number 1, January

Editor's Column	1
Bander's Directory	2
